vide a new entrance into the Zoo Park was strongly advocated at a hearing evenues of the Senate District committee today. Senators Brady and Newands, James Parmelee, Jackson M. were heard in favor of the measure, The District Commissioners have reported favorably on a plan to take over nine acres of ground for this park

A hearing was given also to a number of real estate brokers and builders including H. L. Rust and E. S. Kennedy, on the Works bill to regulate the height of buildings on 18th street, and to limit the height to seventy feet. They opposed the bill, saying that under the present regulations buildings could be erected to a height of eighty-five feet, or seven stories, and that several buildings already had been erected seven stories high and plans were made for others. If the proposed law was enacted, they said, it would interfere with the architectural symmetry of these improvements.
